

JB 4000 | JB 4000 XL

Best-selling single glass partition

Simplicity and transparency, 2 key words that characterize the system wall JB 4000 from Beddeleem. It is a single glazed system partition with a minimalist design. The **JB 4000 XL** version is available up to a wall height of 3800 mm.

Timeless, sleek and subtle

The JB 1000 system convinces as a single glass partition with its clean lines and pure transitions. Its transparent character nevertheless creates the necessary barriers without compromising on architectural freedom, style and technical performance.

Many options

Different options in terms of door sections offer unique possibilities and ensure that the system wall adapts to the customer's dream design. Sliding, fully glazed, HPL (High Pressure Laminate) finished wooden doors are just some of the many options available.

Combinable

The JB 1000 system can be perfectly combined with the JB 2000 system and its many variants. As a result, technical nodes can be integrated flawlessly without sacrificing aesthetics. The system can also be perfectly combined with plasterboard systems thanks to our self-developed transition profile, which ensures a seamless and tight transition.
